YAM 380S

The inflatable that's with you all the way.

Jump into a YAM and join the thousands of happy owners cruising round the ports, marinas and inland waters of Europe. Renowned for their simple, stylish designs, ease of use and refreshing value for money, Yam inflatables help people get out on the water more easily – and have more fun.

All YAM models share the Yamaha reputation for proven reliability – and durability that's really long-lasting. The special hulls and keels ensure practicality, agility and performance while offering a comfortable, secure ride.

Just add a Yamaha outboard, with its all-weather reliability and world class performance – for an unbeatable package.

- Tough, all-round rubbing strips
- Very easy to control and manoeuvre
- Special tube shape offers lots of interior space
- Tough aluminum floor (bow panel waterproof multiplex)
- Ideally suited for water sports and towing toys

YAM 380S

Perfect partners

Yamaha outboards are renowned for their turnkey reliability and YAM inflatables are designed to be the perfect match, from the unique underwater profile to the optimized angle and height of the transom. With a huge range of Yamaha outboards to choose from, it's easy to find the perfect combination of engine and inflatable.

PVC-covered reinforced transom

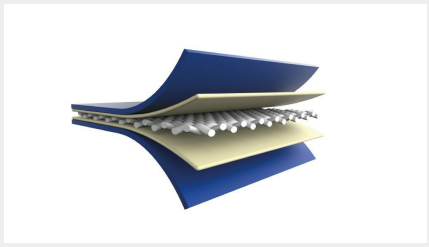
Showing our dedication to quality, we have covered our transom with black PVC. This makes the transom even more resistant to wear and tear and to UV-light, increasing its durability. Of course, the transom is specially designed and tested for a Yamaha outboard engine.

Built to take care of you

In addition to safety features like strong, secure grab-handles, seat patches, D-rings, lifting eyes and other fittings, comfort is also a top priority. The dedicated storage straps for the oars are a perfect example – different from many other inflatables, YAM boats have the oars stored neatly out of the way so you can sit comfortably on top of the hull.

Safe & Secure

The YAM S-Series boats come with a strong strap to secure the fuel tank to the aluminum floor – Out of the way and providing extra safety for the people on board.



Built to last

For maximum strength and good looks, all YAM inflatables are constructed using the latest generation PVC material, with most seams and joints hot-bonded for optimum water tightness and safety. The result is a smart, clean exterior surface that is highly resistant to abrasion, salt water and sunlight.

V-shaped hull configuration

All YAM Sport models use a stable V-hull configuration, providing not only great rigidity and superb directional control at speed, but also precise handling at slow speed. Tough, scratch-resistant rigid floors are a standard fitting – as well as a range of other practical features, such as strong lifting eyes.

YAM 380S

Inflatable specifications	
Overall length	3.80 m
Beam	1.70 m
Max. persons	6
Max engine power	18.4 kW / 25 hp
No of air chambers	3 + 1 (keel)
Stowed dimensions	127 x 80 x 38 cm
Floor material/type	Aluminium
Hull weight	71.75 kg
Max load capacity	820 kg
Max tube diameter	43.5 cm
